

# FUNDACJA KAWIARNI NAJCHĘTNIEJ – MOST KEENLY COFFEESHOP FOUNDATION

We are a young (born on 19<sup>th</sup> January of 2022) foundation that flourished from the love of **culture and art**, inclusive **education** and **coffee** and was created by Janek Podniesiński PhD.

## CULTURE, EDUCATION AND INCLUSION:

We sell beautiful coffee roasts and use the funds to organize cultural and artistic events, publish books or buy art supplies and books for underprivileged people:

- ✓ We cooperated with the independent bookshop “Do Dzieła” in Łódź to buy the most wanted books for primary school children in the village of Chodcza;
- ✓ We are buying art supplies for aspiring painter and organizing art lessons for him through the “Najchętniej Drobiazg” - “Most Keenly a Trifle” project.
- ✓ We support the summer art and education Festiwal “Visions” in a little village of Wierzbica, where young artists can meet with more seasoned ones as well as local creators to learn but also to show their work to the broader audience (If you buy coffee with the label “Najchętniej 9. Festiwal Wizji w Wierzbicy” entire profit goes for this project)
- ✓ We also had a coffee line to support Ukraine (Most Keenly – Free Ukraine). Advised by our Ukrainian Guests, whom we hosted as refugees, we now add Ukrainian chocolate Roshen to each order, as it is a brand owned by Petro Poroshenko(Петро Олексійович Порошенко) who funds much Ukrainian resistance.

Our staff and advisors use their expertise and knowledge gained at the Universities and experience from years spent working with nonprofit organizations concerning social inclusion to tailor the best programs for the Foundation.

## COFFEE

We cautiously choose the best coffee grains (all our coffees are a speciality level, 80 and more points on the SCA scale) from ecologically and socially aware plantations with certification of fair trade and ecological awareness (such as the all-female Peruvian collective of Cooperativa Ecologica de Mujeres Cafetaleras Villa Rica: <http://cemcavir.com/>).

Our Roast-Master Janusz then beautifully roasts the grains to the level that would best show the intricacies of specific taste. We grind the grains or burn them differently depending on our client’s wishes – for Moka pot, coffee machine or French press.

We slightly adjust our coffee offer monthly in three colourful lines: Most Keenly Thinking, Most Keenly Creating and Most Keenly Dreaming. You can pick a favourite or try something new each month!

\* For more underprivileged coffee lovers, we created an official everlasting promo code that you can find on our website. Maybe our projects would get a little less support from those purchases, but one happy coffee lover is worth it!

*PS. Yes, we have our personal favourites – For example, Janek's is Yellow Bourbon. He drank it from a well-sized coffee pot when he created the Foundation.*

## ECOLOGY

Most Keenly, we do Love our Planet – so we are as ecologically aware as possible:

- ☼ We use fully biodegradable packaging that can safely be thrown in mixed bins (in a lab environment, it takes them 66 days to fully dissolve in compost).
- ☼ We do not glue on our labels – the glues tend to interfere with the biodegradation process, and most likely, you would lose the label. Instead, we print the label on thick paper that you can store (to remember your favourite coffee) and use as a bookmark or as a tiny note-card.
- ☼ We use natural rubber bands instead of glue – so you can reuse them in your home. The rubber band is bought from a truly ecological caoutchouc plantation, making it a little bit more expensive but also more healthy for our beloved planet.  
(Ask for eco-details of our packaging: [mlask@kawiarnianajchetniej.pl](mailto:mlask@kawiarnianajchetniej.pl))
- ☼ For all our documents and many materials, we use eco-font, which lowers ink usage  
(see: <https://www.ecofont.com/>)
- ☼ We try to lower our carbon impact by using as much public transportation as possible (For Warsaw, see the option 'Syrenka Logistics'). We also choose ecologically aware transportation providers for long-distance orders.

## OUR TEAM

### **Janek Podnieśniński: founder**

He uses his knowledge earned while doing PhD in theatre history and organization at the Warsaw University to wisely and effectively lead the Foundation and create engaging, socially - impactful projects. Personally, he is a coffee, football and Italy lover and has great expertise in pizzas tastes.

### **Janusz Podnieśniński: coffee provider, coffee roasting and coffee advice.**

He owns a tiny coffeeshop and roastery in Warsaw - visit Kawiarnia i Palarnia Kawy 3P ul. Tarchomińska 11 in Warsaw for a personalized coffee experience and delicious vegan cakes!

Privately Janek's beloved father is officially the wisest and most conscientious businessman we know. He is a master coffee roaster that wholeheartedly loves baking cakes and serving to the client's taste.

### **Aleksandra Stelmach: art, film and theatre advice**

Translator and editor, she works with many film artists, publishers and theatre companies to bring international art to Poland. She is also our voice of reason and energy – booster.

### **Zuzanna Wiśnicka – Tomalak: educational advice, inclusion-focused projects**

Years of experience in educational design, creating workshops for all ages and abilities, and a university degree in Cultural Anthropology and Liberal Arts help her provide truly inclusive educational experiences. She strives for each participant to develop according to their personal needs and abilities in an atmosphere full of kindness and safety. She is now finishing her Group Training and Coaching Diploma at the University of Social Sciences and Humanities. She plans to start her educational projects in our Foundation soon!
